

**The National Science Foundation's (NSF)
National Center for Science and Engineering Statistics (NCSES)**

Request for Solutions (RFS)

**RFS Title: Artificial Intelligence for Enhancing Data Quality, Standardization, and
Integration for Federal Statistics**

RFS Identifier: AI-DQSI-24

RFS Issue Date: June 27, 2024

Full Proposal Due Date: July 25, 2024, 3 PM ET

1. Introduction

1.1 Background

The National Center for Science and Engineering Statistics (NCSES), a federal statistical agency, housed within the U.S. National Science Foundation (NSF), focuses on supporting basic research across the science and engineering (S&E) disciplines. NCSES' primary role originated in the National Science Foundation Act of 1950 (42 U.S.C. 1862 (a) (6): To provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the federal government.

NCSES is one of thirteen principal statistical agencies within the U.S. federal government. NCSES provides objective information on the U.S. S&E enterprise in a global context. It serves a vital role in the collection, interpretation, and analysis of S&E data with respect to research and development (R&D), the workforce, U.S. competitiveness in science and technology (S&T), and educational attainment in the STEM fields.

1.2 Purpose

The purpose of this Request for Solution (RFS) is to provide opportunities to America's DataHub Consortium (ADC) members and other interested organizations with projects that will support the strategic objectives of the National Center for Science and Engineering Statistics (NCSES), specifically related to Artificial Intelligence for Enhancing Data Quality, Standardization, and Integration for Federal Statistics. See Attachment 1 - Project Topic for more details.

2. Instructions

The Government reserves the right to select for award any, all, part, or none of the proposals received in response to this announcement. This RFS is an expression of interest only and does not commit the Government to pay any proposal preparation costs.

ADC's Consortium Management Firm, Advanced Technology International, will receive responses to this RFS and conduct a preliminary screening of submitted full proposals to ensure compliance with the RFS requirements. As part of the preliminary screening process, submissions that do not meet the requirements of the RFS may be eliminated or additional information may be requested to complete a satisfactory screening. The Consortium Management Firm (CMF) will notify offers of the Government's selection decision and make the resulting project award(s).

2.1 Schedule

The full proposal submission deadline is included on the cover page of the RFS. Final decisions on awards are expected in August-September 2024. Awarded projects will be expected to commence in September 2024. The period of performance for proposed efforts is 18-months. For projects requiring data access or other preparatory steps before

the primary research activities can begin, offerors are encouraged to allow time for this prior to official kick-off.

This RFS and amendments issued thereto will be posted on the ADC website at <https://www.americasdatahub.org/>. It is the responsibility of the offeror and interested parties to be aware of RFS amendments by regularly checking the ADC website.

2.2 Offeror Eligibility

This solicitation is unrestricted. All qualified offerors, including universities, may submit a response. If selected for award, offeror must join ADC if not already a member.

2.3 Project Funding

Funding for this program as appropriated in the Federal budget for projects determined by the Government to be technically consistent with the objectives of this RFS and of interest to the Government. The Government reserves the right to expand the award amount to allow for projects with exceptional merit.

It is anticipated there will be one award estimated at \$750,000.

Awards resulting from this RFS will be made based on the evaluation results. Awards are subject to the availability of funds. The Government reserves the right to fund all, some, one, or none of the proposals submitted; may elect to fund only part of a submitted proposal; and may incrementally fund any or all awards under this RFS. Full proposals submitted in response to this RFS that are not initially awarded, may be awarded up to 12-months after the full proposal deadline.

2.4 Project Selection Process

This RFS selection process is structured as a one-step process.

Offerors are invited to submit a detailed technical and cost proposal for evaluation. Proposals shall be prepared in accordance with instructions in Attachment 2.

Proposals must be submitted to the ADC CMF in **Microsoft Word** format using the online form here: https://atisc.formstack.com/forms/adc_ai_dqsi_rfs

2.5 Intellectual Property Rights

Awards will generally contain detailed provisions concerning patent rights, rights in technical data and computer software, data reporting requirements, and other terms and conditions which may be negotiated as part of the award process.

Offerors must describe any limitations on any intellectual property (patents, inventions, trade secrets, copyrights, or trademarks) that will impact the offeror's performance of the contract or impact the Government's subsequent use of any deliverable under the contract. The offeror must describe the intellectual property in sufficient detail to describe the limitations (Data assertions of the offeror or any subcontractor, potential patent licenses required by the Government, etc.), and to describe why or how the Government

can accomplish the stated objectives of this RFS with the limitations described or proposed by the offeror.

2.5.1 Proprietary Data Restrictions

Offerors are advised that proposals may contain data the offeror does not want disclosed to the public for any purpose or used by the ADC CMF or the Government except for evaluation purposes. If the offeror wishes to restrict such data, the cover page of all submittal documents must be marked with the following legend, and relevant sheets marked as instructed.

This proposal includes data that shall not be disclosed outside the ADC CMF and the Government and shall not be duplicated, used, or disclosed – in whole or in part – for any purpose other than to evaluate this proposal. However, if a contract is awarded to this offeror as a result of – or in connection with – the submission of these data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government’s right to use information contained in these data if they are obtained from another source without restriction. The data subject to this restriction are contained in Sheets [insert numbers or other identification of sheets].

Each restricted data sheet shall be marked as follows:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this document.

To the extent that such restrictions on proprietary data or information would not interfere with the intent of the Government to make the results of the work and projects awarded under the RFS available to all interested parties, and if in conformance with the Freedom of Information Act (5 U.S.C. 552, as amended), the Government will honor those desires.

2.6 Other Award Information

It is anticipated that any award will be issued under the ADC Other Arrangement Base Agreement, which can be found on the ADC website. By submitting a proposal in response to this RFS the offeror is agreeing in full to the terms and conditions of the ADC Other Arrangement Base Agreement.

2.7 Agreement Type

It is anticipated the proposed efforts will be funded as firm-fixed-price. However, offerors may recommend an alternate expenditure-based approach (e.g., cost, cost-plus-fixed-fee, etc.) and include the rationale for their use. Unless explicitly identified in the RFS, no other agreement types will be considered for award. Final agreement type will be subject to mutual agreement between selected offeror and the Government.

3. Evaluation and Award

3.1 Full Proposals

The Government will evaluate all compliant submissions in order of criteria importance: (1) Technical (3.1.1) and (2) Cost (3.1.2). Further details regarding these factors are identified below.

3.1.1 Technical

3.1.1.1 Approach

In accordance with Attachment 2, offerors shall address the below evaluation factors in the Proposed Approach section of their Executive Summary. **The Government will evaluate the degree to which the proposed project accomplishes each of the following:**

- i. meets the objectives outlined in Attachment 1
- ii. will result in or lead to a replicable framework that can be used to address similar issues
- iii. demonstrates innovation
- iv. informs strategic priorities of the NSDS

3.1.1.2 Teaming

In accordance with Attachment 2, offerors shall address Teaming and use of non-traditional entities. The Government will evaluate the degree to which the proposed project includes a diverse team of qualified performers to include use of non-traditional entities. A “non-traditional entity” means an entity (construed in its broadest sense to include qualified large and small businesses, universities, non-profits, philanthropic organizations, partnerships, joint ventures, and other entity forms) that is not currently performing and has not performed, for at least the three-year period preceding the solicitation of sources by NSF for the procurement or arrangement, under any NSF procurement contract or NSF instrument of financial assistance.

3.1.2 Cost

The CMF will perform an analysis of the submitted cost proposal and will provide the results to the Government. This effort may entail the CMF requesting additional information from the offeror. The Government will determine whether the offeror’s total evaluated cost/price is fair and reasonable.

3.2 Notifications and Negotiations

All offerors will receive written notification of the final disposition of their proposal. If selected for award, the CMF will contact the offeror(s) with further instructions.

4. Communication

Any questions related to this RFS should be submitted to the ADC CMF in writing at ADC-Contracts@ati.org.
